“Transform the appearance of any room of your home with roller blinds. Trendy and chic, they can breathe the fresh lease of life by adding new colours and textures. You can opt for them in coordinating colours, which already exist in the room or look for contrasting shades, which will make the room bright and beautiful. The best part about adding window blinds is that they can blend with different decor. You can add them with curtains or alone on a window. They can do wonders for your living room window and to the patio one. Try it and transform any space, quickly.”

Note -

- Proportion of design will change according to the size of design.
- There might be slight colour variation in actual print
